#### 1. DESCRIPTION OF BUSINESS

Posera-HDX Ltd. ("Posera – HDX", "HDX" or the "Company"), is domiciled in Canada and is in the business of managing merchant transactions with consumers and facilitating payments emphasizing transaction speed, simplicity and accuracy. Posera - HDX develops and deploys touch screen point-of-sale ("POS") system software and associated enterprise management tools and has developed and deployed numerous POS applications. Posera - HDX also provides system hardware integration services, merchant staff training, system installation services, distribution of electronic cash registers to a network of value added resellers across Canada and post-sale software and hardware support services. Through Posera Inc. and its subsidiaries, collectively ("Posera"), the Company licenses, distributes and markets its hospitality POS software throughout the Americas, Europe & Asia.

Posera - HDX was founded in 2001 and is headquartered at 350 Bay Street, Suite 700, in Toronto, Canada M5H 2S6. The Company's common shares ("Common Shares") are listed on the Toronto Stock Exchange under the symbol "HDX".

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements prepared in accordance with IFRS. As such, these condensed consolidated interim financial statements should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2011.

These condensed consolidated interim financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The accounting policies followed in these condensed consolidated interim financial statements are the same as those applied in the Company's annual consolidated financial statements for the year-ended December 31, 2011. The Company has consistently applied the same accounting policies throughout all periods presented. The accounting policies applied in these condensed consolidated interim financial statements are based on IFRS effective for the year ended December 31, 2012, as issued and outstanding as of the date the Board of Directors approved these statements.

The preparation of interim financial statements in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. These condensed consolidated interim financial statements have been prepared on the historical cost basis, except for certain held for trading financial instruments, which are carried at fair market values.

The results for the three and nine-months ended September 30, 2012 are not necessarily indicative of the results to be expected for the full year. The condensed consolidated interim financial statements were approved for issue by the Board of Directors on November 12, 2012.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Reorganization

On October 7, 2011, the Company was formed as a result of reorganization, by way of a plan of arrangement, which resulted in all of the assets and liabilities of Posera – HDX Inc., except for the Dexit radio frequency identification device ("RFID") business assets and liabilities, and certain other assets being transferred to Posera – HDX Ltd. The former security holders of Posera – HDX Inc. then became the security holders of Posera – HDX Ltd. Posera – HDX Inc. (renamed Dexit Inc.), then became a wholly owned subsidiary of Posera – HDX Ltd. On October 28, 2011, Posera – HDX Ltd. then disposed of Dexit Inc.. This reorganization was accounted for as a capital reorganization transaction at predecessor values. As such these financial statements are a continuation of the previous financial statements of Posera – HDX Inc.

#### Consolidation

These condensed consolidated interim financial statements include the accounts of Posera – HDX Ltd. and its wholly owned subsidiaries. These subsidiaries are A&A Point of Sale Solutions Inc. ("A&A"); Posera Inc. and its subsidiaries: Posera France SAS; Posera Europe Ltd.; Posera Software Inc.; Posera Singapore and Posera USA Inc. ("Posera"); Century Cash Register Inc. ("Century"); HDX Payment Processing Ltd. ("HDX Payment Processing"); and Posera – HDX Scheduler Inc. ("Posera – HDX Scheduler"), which have been included in the consolidated financial statements from April 5, 2010, May 5, 2010, June 1, 2010, December 15, 2011 and December 30, 2011 respectively. The subsidiary of Dexit Inc. (formerly Posera – HDX Inc.) ("Dexit"), which was formed as a result of the reorganization as disclosed above, was included in the consolidated financial statements until Dexit was disposed of on October 28, 2011.

Subsidiaries are those entities (including special purpose entities) over which the Company has the power to govern financial and operating policies. Subsidiaries are fully consolidated from the date on which control is obtained and are de-consolidated from the date that control ceases. Intercompany transactions, balances, income and expenditures, and gains and losses are eliminated.

#### Presentation Currency

These condensed consolidated interim financial statements are presented in Canadian Dollars ("CAD").

## Foreign Currency Translation

The functional currencies of all consolidated entities are CAD, with the exception of Posera Inc. and certain of its subsidiaries, which have functional currencies of the United States Dollar ("USD") (Posera Inc. and Posera USA Inc.), the U.K. Pound ("UKP") (Posera Europe Ltd.), the Euro (Posera France SAS), and the Singapore dollar ("SGD") (Posera Singapore). The Company translates the assets and liabilities of consolidated entities with differing functional currencies to CAD at the rate of exchange prevailing at the statement of financial position date and revenues and expenses of those operations using the average rates of exchange during the period. Gains and losses resulting from this translation are recorded in accumulated other comprehensive loss, a component of shareholders' equity.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign Currency Transactions

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at exchange rates of monetary assets and liabilities denominated in currencies other than an entities' functional currency are recognized in the consolidated statement of operations.

#### Segments

The Company has organized its business around different products and services. Each acquired business is a separate operating segment. The Company then aggregates the operating segments into reportable segments based on the similarities of the products and services that are offered to its customers, the types of customers that products and services are provided to, and the methods used to distribute products and provide services. The chief decision maker of the company was determined to be the Company's Chief Executive Officer (the "CEO"), and as such the Company determined its reportable segments based upon the reports the chief decision maker utilized to evaluate performance and allocate resources. Revenues from external customers are geographically allocated to countries based upon the place where the customers are located.

#### **Business Combinations**

Business combinations that occurred after January 1, 2010 have been accounted for in accordance with IFRS 3, Business Combinations ("IFRS 3"), whereby acquisitions of subsidiaries and businesses are accounted for using the purchase method. The cost of the business combination is measured as the aggregate of the fair values (at the acquisition date) of assets given, liabilities incurred or assumed, contingent consideration and equity instruments issued by the Company in exchange for control of the acquiree. Acquisition related costs are expensed as incurred, except for incremental costs of issuance of debt or equity instruments. The acquired identifiable assets and liabilities are recognized at their fair values at the acquisition date. Goodwill arising on acquisition is recognized as an asset and initially measured at cost, being the excess of the cost of the business combination over the Company's interest in the net fair value of the identifiable assets acquired and liabilities assumed.

If the Company's interest in the net fair value of the acquired identifiable assets and liabilities exceeds the cost of the business combination, the excess is recognized immediately as a bargain purchase gain in the consolidated statements of operations.

Subsequent to initial recognition, measurement of contingent consideration depends on whether it is an equity instrument or a financial asset or liability. Subsequent changes in the fair value of the contingent consideration that is deemed to be a financial asset or liability is recognized in the consolidated statements of operations as gain on financial instruments through profit and loss. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for the gross inflow of economic benefits during the period, arising in the ordinary course of the Company's activities. The Company derives revenues from the following sources:

- a) Revenue from POS systems, digital video recording ("DVR") systems and POS parts and consumables is recognized when the Company has transferred to the customer the significant risks and rewards of ownership, the Company does not retain continuing managerial involvement with or effective control of the goods, the amount of revenue can be measured reliably, it is probable the economic benefits associated with the sale will flow to the Company and the costs incurred or to be incurred in respect of the transaction can be measured reliably. These conditions are generally met when the product has been installed. POS and DVR systems generally include a one year support contract. The Company allocates revenue to each component of the transaction using the relative fair value of each separately identifiable component. The Company defers the fair value of the support services under the agreement, as deferred revenue at the time of sale. Revenue on the support services is then recognized in line with the customer support contract policy below.
- b) Revenue from customer support contracts is deferred and recognized as revenue on a straightline basis over the term of the contract.
- c) PCS and hosting service revenue are accounted for as services. Revenue is recognized when the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the entity, the stage of completion of the transaction at the end of the reporting period can be measured reliably and the costs incurred for the transaction and the costs to complete the transaction can be measured reliably. Generally PCS and hosting service revenue is recognized on a straight-line basis over the term of the contract.
- d) Services revenue relates to the delivery of consulting and system integration services with revenue recognized upon delivery and acceptance by the customer. Software perpetual licenses are accounted for as sales of products as the customer has a perpetual right to use the software freely and the Company has no remaining obligations to perform after delivery of the software. The revenue from these products is recognized when the Company has transferred to the customer the significant risks and rewards of ownership of the software, the Company does not retain continuing managerial involvement with or effective control over the software, the amount of revenue can be measured reliably, it is probable the economic benefits associated with the sale will flow to the Company and the costs incurred or to be incurred in respect of the transaction can be measured reliably. These conditions generally are met when the application software has been delivered.

## POSERA – HDX Ltd. *(formerly POSERA – HDX Inc.)* Notes to the Condensed Consolidated Interim Financial Statements September 30, 2012 and 2011 (unaudited)

#### 3. INVESTMENT CREDITS RECEIVABLE

(in Canadian dollars, except as noted)

#### 9. INCOME TAXES

Income tax expense has been recognized based on management's best estimate of the weighted average annual income tax rate expected for the full financial year for each taxable entity, less a valuation adjustment in instances where it was not probable that any future income tax assets would be realized. The estimated average annual rate used for the three and nine-months ended September 30, 2012, by taxable entity, ranged from 0% to 34%. Certain investment credits were netted against the expenses which were incurred to earn the credits, see Note 3.

#### (b) Stock options and stock-based compensation

Since 2002, the Company has had a stock option plan ("the Old Plan") to encourage ownership of the Company's Common Shares by its key officers, directors, employees and consultants. The maximum number of Common Shares that may be reserved for issue under the Old Plan is 2,000,000 Common Shares. Options under the Old Plan vest over various periods from the date of the granting of the option. All options granted under the Old Plan that have not been exercised within ten years of the grant will expire, subject to earlier termination if the optionee ceases to be an officer, director, employee or consultant of the Company. The majority of options granted under the Old Plan were granted to former executives of the Company.

On September 20, 2011, the shareholders of the Company approved a new stock option plan (the "Plan"). The Plan has a rolling maximum number of Common Shares that may be issued upon the exercise of stock options, but shall not exceed 10% of the issued and outstanding Common Shares at the time of grant. Any increase in the total number of issued and outstanding Common Shares will result in an increase in the available number of options issuable under the Plan, and any exercises of options will make new grants available under the Plan. Options under the Plan vest over various periods from the date of the granting of the option. All options granted under the Plan that have not been exercised within ten years of the grant will expire, subject to earlier termination if the optionee ceases to be an officer, director, employee or consultant of the Company. The Plan was established on July 31, 2007, and reapproved on September 20, 2011 which was enacted to encourage ownership of the Company's Common Shares by its key officers, directors, employees and consultants.

The Company does not have any current intention to convert the options outstanding under the Old Plan into options under the Plan. The Company intends to maintain the Old Plan in place until all outstanding options under the Old Plan are exercised or have expired, at which time the Old Plan will terminate. The Company will not grant any new options under the Old Plan.

### 10. SHARE CAPITAL (continued)

Of the options outstanding and exercisable as at September 30, 2012, nil (December 31, 2011 – 552,665) options with an exercise price of \$0.45 are broker compensation options, and as such are not factored into the 10% threshold as per the Plan discussed above. These broker compensation options expired on April 27, 2012.

The Company recognized an expense of \$87,239 and \$199,243 (2011 – \$147,513 and \$176,513) for the vesting of options issued to directors, officers, and employees for the three and nine-months ended September 30, 2012 respectively, which is included in Operating Expenditures.

The fair value of each option granted was estimated on the date of the grant using the Black-Scholes option-pricing model with the following weighted-average assumptions for options granted in the respective period ended:

	Three-months September 30, 2012	Three-months September 30, 2011
	September 50, 2012	5cptcm6ci 50, 2011

#### 13. SEGMENTED INFORMATION

The Company is divided into two reportable segments: Direct POS; POS Software, with other segments not meeting the aggregation criteria being grouped into other. The Direct POS segment focuses primarily on selling, installing and servicing POS hardware and software directly to endusers. The POS Software segment focuses primarily on developing, licensing, distributing and marketing POS software both directly to end-users, and indirectly through a dealer network. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The Company evaluates performance based on the profit and loss from operations before income taxes, amortization, interest, realized and unrealized foreign exchange gains or losses, other gains or losses and other comprehensive income. The Company manages each segment separately and management at the time of the acquisitions were retained.
